

# HOW TO MAKE OTHER TYPES OF TIPPY TAPS

## 1 Mineral water bottle

Punch a few holes on the mineral water bottle lid and one on the bottle to allow in air.

Fix poles.

Hang bottle and washing soap on the fixed poles. Pour water in the bottle.

Tip the bottle facing flow to allow water flow.

## 2 Mineral water bottle

Make a hole at bottom of the mineral water bottle.

Fix string for hanging at the neck of the bottle.

Hang bottle and washing soap on the fixed poles. Pour water in the bottle.

Loosen lid to allow water flow and tighten lid to stop water flow.

## 3 Tin can

Take an empty tin, turn over and make around 10 holes.

Hang soap and the tin on wooden poles.

Pour a cup of water in the tin.

Wash hands with flowing water from the tin.

## 4 Hollow tube on: gourd or jerry can or mineral water bottle

Make hole toward the bottom of the container.

Insert hollow tube (pen, straw, casing) in the hole.

Fix plug-in cover for the tube before you pour water in the container.

To start water flow, remove container lid. To stop water flow, put tight the container lid.

**Note:** The tippy tap can be hung on or tied to a tree, pole or shelf. Ensure that a soak pit is put in place for the different handwashing facilities.
